

DESIGN. VALIDATE. CONFIGURE. MANUFACTURE.

The complete end-to-end solution for modern furniture manufacturers.

- 3D Design
- 2D Drawings
- Validate (Simulation)
- Configure (Configurations)
- Manufacture (CNC)
- Visualize (Rendering)
- Document & Instructions

DESIGN

Create intelligent 3D models and 2D documentation.

VALIDATE

Test & optimize your design for performance, safety and manufacturability.

CONFIGURE

Automate product variations and generate quotes in just a few minutes.

MANUFACTURE

Go from design to CNC and manufacture furniture with speed and seamless accuracy.

WHERE OUR INTEGRATED WORKFLOW APPLIES TO

<p>DESIGN (SOLIDWORKS)</p> <p>Parametric, fully editable designs for faster development.</p>	<p>VALIDATION (SIMULATION)</p> <p>Analysis, stress testing, and motion simulation to ensure durability, safety, & sustainability impact.</p>	<p>COMPACT W410 x D485 H680 mm</p> <p>STANDARD W520 x D520 H790 mm</p> <p>LARGE W600 x D560 H870 mm</p> <p>CONFIGURATION (DRIVEWORKS)</p> <p>Automate variants, design options & pricing. Made-to-order designs made easy.</p>	<p>MANUFACTURING (SOLIDCAM)</p> <p>Generate precise toolpaths for efficient & reliable production.</p>	<p>RENDERING (VISUALIZE)</p> <p>Make stunning realistic renders for better product presentation for clients.</p>	<p>ASSEMBLY (COMPOSER)</p> <p>Automate assembly/disassembly instructions, in minutes.</p>

PRODUCT DESIGN

READY FOR PRODUCTION

WHY THIS MATTERS

- ✓ REDUCE ERRORS
- ✓ SPEED UP PRODUCTION
- ✓ UNIFY DESIGN AND MANUFACTURING

WHY COMPANIES CHOOSE US

- FASTER DEVELOPMENT
- PRECISE DESIGN VALIDATION
- MASS CUSTOMIZATION
- ACCURATE DOCUMENTATION
- SEAMLESS MANUFACTURING
- BETTER PRODUCT PRESENTATION
- ECO-EFFICIENT DESIGN

TRANSFORM IDEAS INTO EXCEPTIONAL FURNITURE.
